"The Australian Road Cycling team stayed at the Geelong Conference Centre for the duration of the 2010 UCI Road World Championships.

The venue was perfect for our team. The rooms were spacious & comfortable and nothing was too much trouble for the staff, from accommodating a workshop/office set up for us, to ensuring that the team meals were prepared according to our dietician's specifications.

We would have no hesitation in recommending the Geelong Conference Centre to any sporting group and look forward to staying there again in the future."

- Shayne Bannan, Performance Director, Cycling Australia
