

Hand painted mini cactus garden

Mini Pots

Rocks/pebbles

Paint Brushes & Acrylic Craft Paint – green and white

White Permanent Pen/marker (optional for decorating)

Sealant (optional)

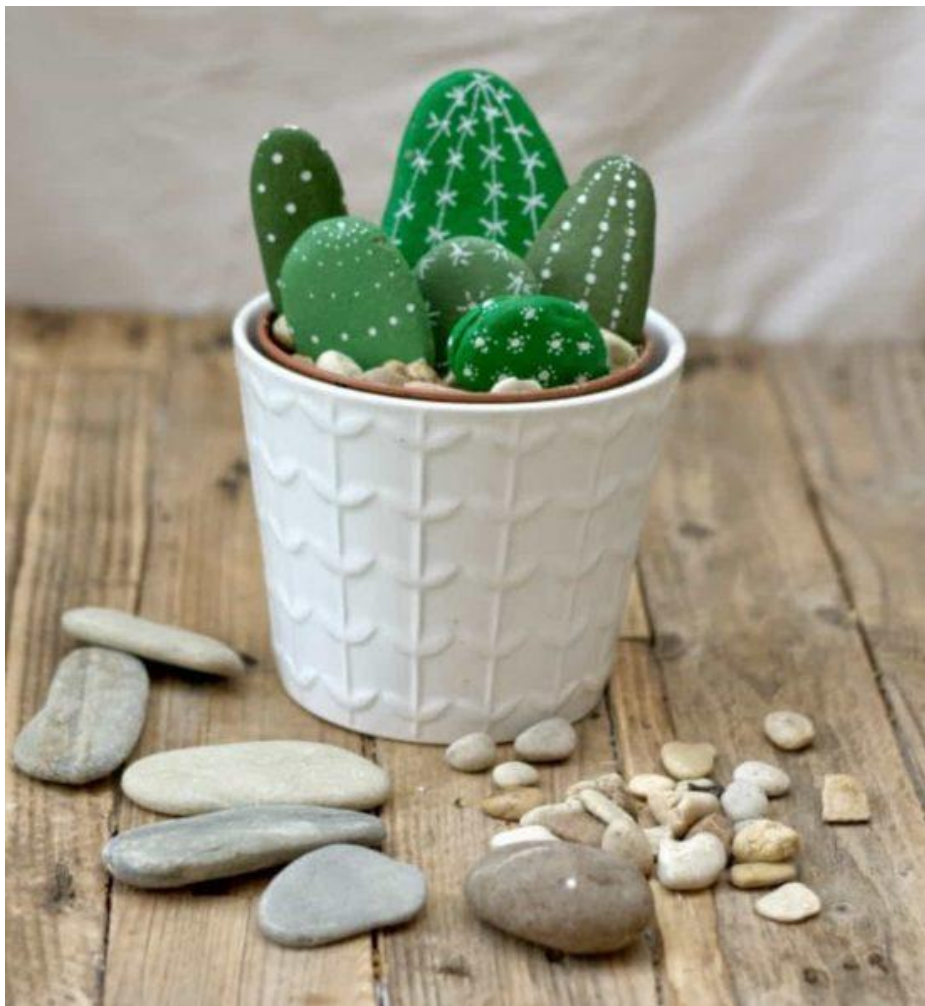

How To Make Cactus Painted Rocks

This is a very simple project that would be perfect for Mother's Day. The important thing is to locate the correct shaped rocks. You want a nice smooth surface to make it easier to decorate.

You should wash and dry them thoroughly, so you have a nice clean surface to paint on.

Once you have painted your rocks green, leave them to dry completely. You can then decorate using white paint or a permanent white marker. You can use dots, lines, stars to create effects like the photos show.

A sealant will preserve the colour in your rocks.
